EDUCATION

B.Tech in Information Technology

Chhatrapati Shahu Ji Maharaj University, Kanpur

CGPA: 8.48/10

Oct 2022 – June 2026

Senior Secondary (PCM)

Saraswati Vidya Mandir Inter College, Noorpur, Bijnor

Percentage: 86.4%

Apr 2020 – Mar 2021

Secondary School

Saraswati Vidya Mandir Inter College, Noorpur, Bijnor

Percentage: 84%

Apr 2018 – Mar 2019

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Core Concepts: OOP, Collections Framework, Exception Handling, Multithreading, File Handling

Frontend Technologies: HTML5, CSS3, Thymeleaf, React.js

Backend Technologies: J2EE, Spring Framework, Spring Boot, Hibernate/JPA, JDBC, Servlets, RESTful APIs, MVC Architecture

Databases: MySQL, MongoDB

DevOps & Tools: Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, Eclipse

CS Fundamentals: Data Structures & Algorithms, DBMS, Operating Systems

EXPERIENCE

• Java Programming | CodSoft

July 2024 – Aug 2024

ATM Interface System

Role: *Java Programmer*

- Designed and built a console-based ATM interface system in Core Java featuring secure PIN authentication, balance inquiries, cash withdrawals, and deposit operations.
- Applied OOP principles, Java collections, and file handling techniques to create modular, reusable code with robust exception handling.

• Full Stack Web Developer Intern | WebStack Academy

Sep 2025 – Nov 2025

Stay Finder

Role: *Full Stack Web Developer*

- Engineered a location-based hotel booking web application featuring verified user access, real-time availability search, and an integrated payment workflow.
- Optimized responsive UI and scalable backend services, enhancing API performance and improving overall user experience by 40% through efficient state management and clean code practices.

PROJECTS

• Job Portal System 🚀 🔄 | Java, Spring Boot, MongoDB, React.js, Maven, RESTful APIs

- Engineered a scalable recruitment platform enabling seamless interaction between recruiters and candidates across 1,000+ job listings.
- Refined MongoDB schemas using efficient indexing strategies, improving job search and application tracking performance by 20%.
- Architected secure and modular REST APIs using OOP principles and DTO patterns across more than 10 endpoints.
- Integrated React-based filtering for job location, role, and skills, enhancing user experience and data accessibility.

• YouTube SEO Tools (SaaS) 🚀 🔄 | Java, Spring Boot, React.js, Docker, YouTube Data API

- Created a full-stack SaaS platform to enhance YouTube content discoverability by extracting hidden metadata and generating SEO-focused keywords.
- Containerized backend services using Docker with multi-stage builds to ensure consistent deployments and reduced image size.
- Created automated SEO scoring logic that increased keyword relevance accuracy by 25% through comparative metadata evaluation.

• Integrated HRM System 🚀 🔄 | Java, Spring Boot, React.js, MySQL, Maven

- Executed a full-stack application utilizing Modular Design (Controller-Service-Repository) for scalable and maintainable code.
- Architected a protected user portal featuring robust authentication and session management via React functional components.
- Developed RESTful endpoints to streamline employee data operations, synchronizing them with the frontend through asynchronous API calls.
- Optimized data persistence by crafting efficient database schemas and leveraging Spring Data JPA for seamless information retrieval.

ACHIEVEMENTS & CERTIFICATIONS

• **Reliance Foundation Scholarship:** Selected for the Reliance Foundation Scholarship (2023) and awarded Rs. 2,00,000.

• **Competitive Programming:** Solved 600+ DSA problems; 1500+ LeetCode rating and 2-Star CodeChef.

• **Java Full Stack Development** – Code For Success

• **Generative AI** – NPTEL

• **Data Structures and Algorithms** – Infosys
