SUMMARY

Motivated Final Year B.Tech IT student at CSJMU Kanpur, specializing in Java development and database management. GATE 2026 Qualified and Reliance Foundation Scholar (Rs. 2,00,000). Passionate about building efficient, scalable, real-world applications with clean code practices and strong problem-solving skills.

EDUCATION

B.Tech in Information Technology

Chhatrapati Shahu Ji Maharaj University, Kanpur

CGPA: 8.48/10

Oct 2022 – June 2026

Senior Secondary (PCM)

Saraswati Vidya Mandir Inter College, Noorpur, Bijnor

Percentage: 86.4%

Apr 2020 – Mar 2021

Secondary School

Saraswati Vidya Mandir Inter College, Noorpur, Bijnor

Percentage: 84%

Apr 2018 – Mar 2019

SKILLS

• Technical Skills:

Programming Languages: Java, SQL, JavaScript

Core Java Concepts: OOP, Collections Framework, Exception Handling, Multithreading

Backend Technologies: Spring Boot, Spring Security, Spring Data JPA, REST APIs, Maven

Frontend Technologies: React.js, HTML5, CSS3, TailwindCSS

AI & GenAI: Generative AI, LLM Integration, Prompt Engineering

Testing & QA: JUnit, Postman, Unit & Integration Testing, Debugging

Databases & Caching: MySQL, Redis, MongoDB

CS Fundamentals / Tools: DBMS, Operating System, Data Structures & Algorithms, Git, GitHub

PROJECTS

• HireSphere – Enterprise Job Portal Applicant Tracking System (ATS) [🔗](#) [🔗](#) | [Java](#), [Spring Boot](#), [Spring Security](#), [MongoDB](#), [React](#), [Redux Toolkit](#), [Tailwind CSS](#), [Maven](#), [RESTful APIs](#)

- Developed a scalable Full-Stack Job Portal web application using React, TypeScript, Java Spring Boot, and MongoDB, implementing clean MVC patterns and dynamic REST APIs.
- Secured the platform with Spring Security JWT, implementing role-based access control (RBAC) and global Axios interceptors to handle token injection and session expirations.
- Optimized MongoDB performance by implementing Spring @Scheduled cron jobs to automatically purge expired OTP records and designed atomic sequence generators for custom ID management.
- Built a resume handling system that base64-encodes PDF files, stores them as binary arrays (byte[]) in MongoDB, and reconstructs them on-the-fly using browser Blob and Object URLs for seamless client-side viewing.

• SmartHealthCare: AI-Powered Clinical Console & Secure Transactional Ledger [🔗](#) [🔗](#) | [Java 17](#), [Spring Boot](#), [Spring Security \(JWT\)](#), [Spring Data JPA](#), [Redis Caching](#), [React](#), [MySQL](#), [REST APIs](#), [Git](#), [Maven](#)

- Engineered an ACID-compliant Payment Ledger using Spring @Transactional boundaries, ensuring 100% database rollback on payment failures, and integrated dynamic UPI QR Code checkout.
- Improved doctor search lookup time from 250ms to 40ms by implementing Redis caching, writing a custom fallback configuration to query MySQL if the cache is offline.
- Resolved slot booking conflicts to ensure 0% double-booking errors by applying unique composite database constraints on doctor ID, appointment date, and time.
- Integrated Anthropic Claude API for symptom triage and created a local keyword-matching algorithm to provide recommendations even when the AI API is offline.

EXPERIENCE

• Java Development Intern | Elite Tech

February 2026 - May 2026

Key Project- [ATM Interface System](#) — [Java](#), [OOP](#), [Encapsulation](#), [Exception Handling](#)

- Developed a console-based ATM Interface System utilizing the Java Collections Framework (ArrayList, HashMap) for efficient in-memory user sessions and transaction log management.
- Architected modular class structures using OOP principles (specifically Encapsulation and Abstraction) to decouple transaction processing, account management, and UI logic.
- Designed custom exception handling to catch and handle invalid inputs or edge-case runtime scenarios, achieving 100% crash-free operations during testing.

ACHIEVEMENTS & CERTIFICATIONS

- GATE 2026 Qualified:** Computer Science & IT (Nationally recognized competitive exam)
- LeetCode:** Solved 500+ data structures algorithms problems with a peak contest rating of 1600+
- Reliance Foundation Scholarship:** Selected among top students nationwide, awarded Rs. 2,00,000.
- Java Full Stack Development** – Code For Success
- Generative AI** – NPTEL
